Pharma Manufacturing Conclave

25 November 2025 | IEML, Greater Noida

India, considered as pharmacy of the world, is the largest provider of generic drugs globally. It ranks 3rd in terms of pharmaceutical production by volume and 14th by value. India's pharma and biopharma sector is experiencing explosive growth, projected to reach a staggering \$130 billion by 2030. This surge is fueled by a large, demanding domestic market, a robust manufacturing base churning out generics, and India's position as a global vaccine powerhouse, supplying over 60% of the world's needs.

The biosimilar market is another area of strength, currently valued at \$349 million and expected to skyrocket to \$2.1 billion by 2030, potentially making India a leader in this biosimilar revolution. With government support and rising healthcare expenditure further propelling the sector, India is poised to become a dominant force in the global pharmaceutical landscape.

The Pharma Manufacturing India Conclave 2025 is curated to address critical discussions on the theme India as Global Leader in the pharma space with focus on manufacturing. Decision-makers from manufacturers, academics, industry associations, contract manufacturing organisations and other key stakeholders gather under one roof to brainstorm on navigating the challenges and discuss the road ahead. The program will discuss smart manufacturing for all, innovation required in pharma R&D, how to go up in the innovation curve, attracting the required skill set, and much more

Pharma Sustainability Conclave

26 November 2025 | IEML, Greater Noida

India's life sciences and pharmaceutical industry is experiencing a remarkable growth spurt. India's prowess in generic drug manufacturing has earned it the global moniker of "pharmacy of the world," with a commanding 20% share of the global generic drug supply by volume, highlighting its vital role in providing accessible medications. According to Economic Survey 2022-23, India is ranked 3rd worldwide in the production of pharma products by volume and 14th by value. India is slowly progressing in the biopharma manufacturing space also. There are 98 approved biosimilars in India, with at least 50 on the market, the most of any country in the world.

Indian companies are taking multiple steps to strengthen their core competencies in the field of R&D, manufacturing, quality system, etc., comply with stringent regulatory requirements and build the sales capabilities to tap into the huge market potential.

However, this impressive growth comes with a responsibility to operate sustainably and minimise environmental footprint. We have already made a start and almost 38 per cent of the pharma sector companies have been publishing dedicated sustainability reports since 2020. Indian Companies have secured their place in global indices like S&P Global Index and are a part of GLN, My Green Lab to mention some.

The Pharma Sustainability Conclave 2025 is the only forum that looks at exploring the key sustainability challenges faced by the pharma and biopharma industry, analyze effective strategies for reducing its environmental footprint, and unveiling the exciting opportunities that lie ahead for a greener future of Indian pharmaceuticals.

Supply Chain

Who will Attend Pharma Sustainability Conclave

Departments:

Sustainability / EHS

Formulation Development/ R&D

Manufacturing Operations

Packaging Development

Supply Chain Management

Quality Assurance & Compliance

Past Speakers

Dr. Rhonda Duffy
Executive Vice-President
& Chief Operating Officer,
Biocon Biologics

Dr. Mahesh Bhalgat
Group CEO & MD,
Veeda Clinical
Research Limited

Anil Matai
Director General
**Organisation of
Pharmaceutical
Producers of India
(OPPI)**

Chakravarti AVPS
Global Ambassador,
**World Packaging
Organisation**

Yugal Sikri
Managing Director,
RPG Lifesciences

**Jerome
Gnanaprakasam**
Global Head - Projects
& Engineering, EHS &
Sustainability,
Dr.Reddys Laboratories

**Dr. Dennis
McCullough**
Vice President,
Global Sales,
CAS

**Chandi Prasad
Ravipati**
Head Packaging
Development
Aurobindo Pharma

Rajendra Patil
Head - EHSS
**Syngene
International**

**Sunila
Sahasrabudhe**
Head - ESG Finance
Biocon

Himanshu Gupta
Director Sales -
South Asia,
**Veolia Water
Technologies &
Solutions**

Rajesh Vasudevan
Vice President -
EHS & ESG

**Dr. Mandar
Ghatnekar**
Global Head IT &
Digital Transformation
Biocon Biologics

Narendra Saini
Chief Digital &
Data Officer
Lupin

Dheeraj Sinha
Executive Vice President
and Chief Information
Officer
Sunpharma

Abhay Srivastava
President Operations,
Mankind Pharma

Prof. Ravichandiran
Director,
NIPER - Kolkata

Atul Shastri
President Operations
**Euglia Pharma
Specialities**

Past Speakers

Dr. Tathagata Dutta
President &
Chief Technology Officer
Jodas Expoim

Dr. Shubhadeep Sinha
Senior Vice-President-
Development
Hetero

Dr. Abhishek Mathur
Chief Scientific Officer,
Enzene Biosciences

Dr. Pramod Wangikar
Chair Professor for
Green Chemistry and
Industrial Biotechnology,
Department of
Chemical Engineering
IIT Bombay

Dr. Sanjeev Gupta
Sr. Vice President
**Advanced
Biotech Lab, IPCA**

Raxit Mansinh Rodiya
Chief Manager
Application Dev. and
Marketing,
**Gujarat
Fluorochemicals**

Prudhvi Teja
Principal & Head DPEx,
CTOs (API),
Dr. Reddys

Meenakshi Jain
Head, Regulatory
Generics Development,
**Sandoz Private Limited,
India**

Subhrangshu Chaudhury
Vice President &
Head of Quality,
**Centaur
Pharmaceuticals**

Matruprasad Priyadarshi
Senior Director-
Regions &
Program Operations

Kaustubh Kulkarni
Senior Manager -
Packaging Development
Wockhardt Ltd

Santanu Chowdhury
Senior General
Manager- Packaging
Sunpharma

Mary Poddar
Supply Chain

Sankalp Chawla
Associate Director
Global Procurement-
Sustainability,
GSK, India

Swati Kapoor
Quality Head,
Takeda India

Dr. Abdur Rub
Ex-CEO - Wadhwani
Research Centre for
Bioengineering,
IIT Bombay

Dr. Waesarat Soontornchaiboon
Product Innovation
Manager,
SMS Corporation Co., Ltd.

Dr. Siwarutt Boonyarattanakalin
Assistant Innovation
Director,
SMS Corporation Co., Ltd.

Pharma Connect Congress

25th & 26th 2025 November, India Expo Centre, Delhi NCR, India

Day 1- 25th November 2025, Tuesday

08:00 – 10:00

Registration & Networking

10:00 – 11:00

Welcome Address & Inauguration

11:00 – 11:45

Leadership Panel: Reimagining Innovation and Manufacturing to Enable Transformative & Affordable Medicines

- Revamping your portfolio towards transformative medicines
- Innovation and focus on R&D to stay ahead
- Rethinking manufacturing with focus on affordability to widen the scope of commercialisation
- AI & Digital to help with process development and manufacturing
- Including Sustainability in your manufacturing

11:45 – 12:15

Keynote: Ensuring Business Sustainability in a Shifting Geopolitical Landscape

- Navigating the critical geo-political uncertainties
- A look into the current pipeline and the need to revamp your portfolio/strategies
- Indigenous and global market strategies

12:15- 12:45

Evolving From Lot Manufacturing: Exploring Modular & Continuous Manufacturing for Cost-Effective, Scalable, High-Quality Production

- Batch vs Continuous Manufacturing- understanding what is feasible
- Transitioning to continuous manufacturing – exploring the challenges
- Adopting modular design for futureproofing manufacturing

Solution Provider

12:45- 13:30

The Digital Transformation Panel: Think Next- Adopting Technology End-to-End- From Bench to Bedside

- Understanding and mapping the advantages of Industry 4.0 technologies and creating a business case
- Imbibing technology in vendor management & supply chain
- Integrating technology into current processes
- Understanding compliance with evolving global standards

13:30- 14:30

Lunch & Networking Break

Pharma Connect Congress

25th & 26th 2025 November, India Expo Centre, Delhi NCR, India

14:30 – 15:00

Exploring the Global Biopharma Opportunity with Better Therapies

- Continuous investment in R&D exploring new candidates & processes
- Developing high quality & effective biologics, biosimilars, ATMPs
- Rethinking manufacturing to focus on cost effective therapies
- Partnerships to enable better outreach

15:00- 15:30

Session Reserved for Gerresheimer

15:30 – 16:00

Fireside Chat: Beyond GMP Compliance- Practices to Enhance Patient Centricity

- Embracing a Quality by Design approach with proactive control strategy and risk management
- Meeting regulatory requirements and be inspection ready always
- Digitalization to help quality control and assurance
- Quality management maturity to drive continuous improvement

16:00- 16:30

Revision of Annex 1 for Effective Risk Management & Contamination Control of Sterile Products

- Revamping Contamination Control Strategy across the facility
- Requalification of cleanrooms
- Equipment design, installation and cleaning requirements
- Non-Conformity & CAPA management

16:30

Networking Break & End of Conference Day 1

Pharma Connect Congress

25th & 26th 2025 November, India Expo Centre, Delhi NCR, India

Day 2- 26th November 2025, Wednesday

08:00 – 10:00

Registration & Networking

10:00 – 11:00

Welcome Address & Inauguration

11:00 – 11:45

Leadership Panel Discussion: Charting the Roadmap to Meet the Sustainability Goals

- Listing the ESG goals & moving towards “Net-Zero”
- Lifecycle Assessment as a tool to identify and focus on high impact activities
- Supplier Collaboration for sustainable practices throughout the value Chain
- Measuring customer value vs cost of going green
- Using technology to reduce carbon footprint

11:45 – 12:15

Beyond Compliance: Meeting the Expectations of Government, Investors, Customers and Employees

- Navigating Environmental Standards & Regulations in Pharma & Biopharma sector- India & Global
- ESG Reporting to SEBI with the right metrics and BRSR
- Global Sustainability Rankings
- Measuring and Reporting ESG initiatives to employees and customers to collectively create value

12:15- 12:45

Driving Energy Efficient & Waste Reduction Practices Onsite

- Efficient facility design
- Role of AI to optimize pharma manufacturing, energy consumption and resource utilization
- Use of renewable energy and energy efficient resources
- Use of recycled water in the processes where feasible
- Focus on reduction of toxicity and emissions

Solution Provider

12:45- 13:15

Fireside Chat: Adopting Green Chemistry in Drug Discovery & Development for Affordable Products

- Incorporating Green Chemistry principles in drug discovery & development
- Lower COGS with green chemistry
- Cost effective scaling up manufacturing with Green Chemistry principles

Pharma Connect Congress

25th & 26th 2025 November, India Expo Centre, Delhi NCR, India

13:15- 14:15

Lunch & Networking Break

14:15 – 14:45

Towards Scope 3: Engaging Suppliers towards Decarbonisation Journey in Lifesciences

- Promoting sustainability across the entire value chain
- Clearly define & communicate the decarbonisation goals and expectations for suppliers.
- Driving towards Scope 3 emission strategies

14:45- 15:15

Designing and Developing Green Drug Delivery Systems

- Exploring biodegradable polymers and in other sustainable materials drug delivery
- Innovation in drug delivery technology like auto-injectors to reduce waste
- Designing for a circular economy

Solution Provider

15:15- 15:45

Green Strategies for Primary Packaging to Minimise Environmental Impact

- Glass Vials to drive sustainability goals
- Using biodegradable & reusable systems while ensuring the product remains effective and safe
- Adhering to required compliance across geographies

15:45- 16:30

Packaging Leaders Panel: Incorporating Green Design in Pharma Packaging to Reduce Carbon Footprint

- Exploring & adopting sustainable pharma packaging – materials & design – throughout the product life cycle
- Exploring Circular economy in pharma packaging
- Intelligent Packaging to track & trace
- Adopting efficient & effective cold chain packaging and logistics to help sustainability in advanced therapies
- Ensuring compliance & patient safety
- Cost- benefit analysis

16:30

Networking Break & End of Conference
